Juices stored at room temperature are price-controlled items. However, their prices may vary because our pricing structure is based on a fixed maximum percentage mark-up rather than a fixed-price system. Factors such as country of origin, quantity purchased, purchasing method, and freight charges significantly influence the final price of the goods.

COMPARE PRICES:

Check prices across different brands and suppliers before you purchase.

EXAMINE GOODS BEFORE PURCHASE:

Inspect seals, check expiration dates, and ensure packaging is not dented or leaking before purchasing.

AVOID IMPULSE PURCHASES:

Stick to your shopping list and budget to avoid unnecessary spending.
