BLACK-EYED PEAS

Black-eyed peas, also known as cowpeas, are not peas but rather a type of bean. Black-eyed peas are highly nutritious and associated with many impressive health benefits. In particular, they may help support weight loss, improve heart health, and promote digestive health. They're also versatile, delicious, and easy to incorporate into a number of recipes as part of a healthy diet (healthline).

Black-eyed peas is a price controlled good and retails as follows:

Item	Size	Price
Peacock Black-Eyed Peas	0.88oz	\$4.46
