HOW TO MAKE MIXED VEGETABLES TASTE GOOD

Mixed vegetables are just processed vegetables and other than the flavors of the individual vegetable, they are rather plain. To make mixed vegetables taste better you'll want to include them in recipes or add seasoning. Salt and pepper won't cut it alone. Consider adding butter, cheeses like parmesan or Romano, and other seasonings and spices. Garlic and onion are great with butter in mixed vegetables (fourscoreliving).

Mixed vegetables is a price controlled good and retails as follows:

Item	Size	Price
Libby's Mixed Vegetables	8oz	\$4.98
